# 1. Introduction

- 1.1 Under the [National Planning Policy Framework 2024](#) (NPPF) local planning authorities should demonstrate each year that they have at least five years' worth of housing supply against their housing requirement.
- 1.2 This paper demonstrates that the Council does have a five-year housing land supply at 1<sup>st</sup> April 2024 with a surplus of 582 homes over the next five years.
- 1.3 This paper also demonstrates that the Council is on track to meet its local plan housing requirement over the full plan period to 2032 (see Section 5 and Appendix 10).
- 1.4 The absence of a five-year land supply would render relevant development plan policies out-of-date, triggering the presumption in favour of sustainable development (NPPF paragraph 11). This would increase the risk of new homes being permitted on sites that are otherwise protected under policies in the development plan.
- 1.5 The housing land supply position demonstrates that the need for new homes in Hart is being met, and that the Council is delivering on the vision and objectives in the Local Plan, and its [Corporate Plan 2023-2027](#) (see Box 1).
- 1.6 Further information on housing delivery, including the provision of affordable homes, supported accommodation for the older persons, and self & custom build, will be provided in the Council's Annual Monitoring Report for 2023/24.

**Box 1: Extracts from Local Plan vision and objectives and Corporate Plan 2023 - 2027**

**Local Plan vision** includes:

*We will have played our role in meeting future housing, social and economic needs, with priority given to the redevelopment of previously developed (brownfield) land. This includes the creation of a new community at Hartland Village, east of Fleet.*

**Local Plan objectives** includes:

- 1. To plan for sufficient land to be available for at least 7,614 new homes to be built in the district in the period 2014 – 2032 such that it provides a continuous supply of housing.*
- 2. To deliver a sustainable new community at Hartland Village by 2032.*

**Corporate Plan 2023 – 2027** includes: *Ensure access to housing by:...*

*Delivering the number of new homes required in the district through innovation, modular housing, and developing sustainable infill and other sites within the settlement boundaries as defined in the Local Plan.*

## 2. Five-year housing requirement

- 2.1 The five-year housing requirement is the number of homes needed over the next five years from 1<sup>st</sup> April 2024 to 31<sup>st</sup> March 2029.
- 2.2 The housing requirement at HLP32 Policy SS1 is the start point for calculating the five-year housing requirement. This accords with [NPPF paragraph 78](#), the HLP32 being less than 5 years old.
- 2.3 The HLP32 housing requirement for the period from 2014 to 2032 is 7,614 homes over the plan period, an average of 423 homes per annum.
- 2.4 To calculate the five-year requirement the Council's approach is to multiply the annual requirement of 423 homes by 5, and then subtract the total number of surplus completions since the start of the plan period. This approach ensures that the *average* requirement of 423 homes per annum is reflected in the number of homes needed over the next five years, taking into account delivery prior to the five-year period. A buffer is then added in accordance with national policy.
- 2.5 On the matter of past oversupply the HLP32 Inspector said the following at paragraph 100 of his [report](#):

*"I consider that previous oversupply during the beginning of the Plan period should be taken into account during the calculation of the Council's five-year housing land supply. Consequently, towards the end of the Plan period where supply falls below the housing requirement, the five-year land supply calculation at that point in time should take into account the oversupply above the housing requirement during the early years of the Plan."*

- 2.6 Taking past completions into account when calculating the five-year requirement continues to be appropriate. In its response to the [2024 NPPF consultation](#) (question 8), the Government stated:

*"This change is intended to simplify the wording of the National Planning Policy Framework and has no bearing on local authorities' ability to account for over-supply – this can continue to be taken into account as it is currently."*

- 2.7 The five-year requirement is calculated as follows:

- Step 1 Multiply the annual local plan housing requirement of 423 homes per annum by five years = 2,115 homes
- Step 2 Subtract past over-provision of new homes since the start of the plan period April 2014. The past surplus amounts to 1,373 homes

(see [Appendix 1](#)).  $2,115 - 1,373 = 742$  homes to be provided over the next five years.

Step 3 Add a 5% buffer as required by the [National Planning Policy Framework](#) (see [Appendix 2](#)).  $742 + 5\% = 779$  homes to be provided over the next five years (156 homes per annum for the next five years).

Five-year housing requirement =  $((423 \times 5) - 1,373) \times 1.05$   
= **779 homes (156 per annum)**

### 3. Supply of new homes

#### Which homes form the five-year supply?

3.1 Hart district's five-year housing supply comprises the number of homes expected to be built within five years on specific 'deliverable' sites, and a windfall allowance.

3.2 Deliverable sites and windfall sites are defined in the [NPPF](#) 2024 glossary:

**Deliverable:** To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.

**Windfall sites:** *Sites not specifically identified in the development plan.*

3.3 In Hart district's context, homes that have been granted a 'prior approval' under permitted development rights, and are expected to be completed within five years, are counted as deliverable, unless mitigation is needed against impacts on the Thames Basin Heaths Special Protection Area which has not yet been secured (see Policy NBE3 of the HLP32). Prior approvals that need SPA mitigation (Suitable Alternative Natural Greenspace and Strategic Access Management and Monitoring), but do not have it, cannot be lawfully implemented, and so do not form part of the five-year supply.

3.4 On *large* deliverable sites, only those homes expected to be completed within five years count as part of the five-year supply. Information on build out rates has been obtained direct from developers in many cases. Where this information was not forthcoming, informed estimates have been used, working with the Spatial Policy, Strategy and Research Team at Hampshire County Council which provides estimates of large site delivery on behalf of local authorities across Hampshire.

## **Deliverable sites of 1 to 9 homes**

- 3.5 At 1 April 2024 there were **100** homes (net) on deliverable sites of 1 to 9 homes. These sites are listed at [Appendix 3](#).
- 3.6 All of these sites benefit from planning permission or have a prior approval with SPA mitigation secured where needed. All homes on these sites are expected to be completed within the next three years. Those that have started are expected to be built out in 2024/25. Those not started are expected to be built out in 2025/26 and 2026/27.

## **Deliverable sites of 10 to 99 homes**

- 3.7 Sites of 10 to 99 homes with planning permission, or prior approval with SPA mitigation where needed, are listed in detail at [Appendix 4](#).
- 3.8 At 1 April 2024, a total of **52** homes (net) had an outstanding planning permission on these sites.
- 3.9 All of these sites benefit from detailed planning permission or have prior approval with SPA mitigation where needed. The delivery rates on these sites are set out at [Appendix 5](#). All are expected to be built out within three years.

## **Deliverable sites of 100 or more homes**

- 3.10 Sites of 100 or more homes with planning permission, or prior approval with SPA mitigation where needed, are listed at [Appendix 6](#). Delivery rates for these 5 sites are set out at [Appendix 7](#).
- 3.11 At 1 April 2024, a total of **1,821** homes (net) had an outstanding planning permission on these sites, with 1,263 to be delivered over the plan period.
- 3.12 The following 4 sites benefit in their entirety from detailed planning permission, or prior approval with SPA mitigation where needed, are all under construction, and are expected to be completed within five years:
- Hawley Park Farm, Hawley Road, Hawley
  - Land at Watery Lane, Church Crookham
- 3.13 The other two sites of 100 or more homes are:
- Land North of Netherhouse Copse, Fleet
  - Hartland Village, Fleet
- 3.14 Both of these sites benefit from outline permissions and some detailed permissions for some phases. Both sites are under construction and discussed in further detail below.

- 3.15 Providence House, Bartley Way, Hook is also included in the deliverable sites of 100 or more homes. The converted office building provided 107 flats which were completed in 2019/20 (16/00883/PRIOR). Subsequently, a separate application to deliver an addition 2 homes was permitted. These homes are under construction and are expected to complete in the next 5 years (17/02465/FUL).

### **Land North of Netherhouse Copse**

- 3.16 An outline permission (16/01651/OUT) for 423 homes was granted on appeal in July 2017. Reserved matters applications have since been approved to provide 178 homes in phase 1 (18/01795/REM, 19/02261/REM, 19/02471/REM, 19/02472/REM) and 39 homes in phase 2 (21/01254/REM).
- 3.17 In June 2022 the Council's Planning Committee resolved to grant planning permission for a new hybrid application (21/02782/OUT), subject to the completion of a S106 planning obligation. The new application redesigns later phases of the development, securing detailed permission for phase 3 and outline permission for phases 4 and 5 to deliver an additional 105 homes. This brings the total number of homes for the site to 528. The legal agreement was completed in October 2023.
- 3.18 Projected delivery rates were provided by the developer and have been incorporated into the table set out at [Appendix 7](#). This sets out that the remaining 311 homes are expected to complete within 5 years.

### **Hartland Village**

- 3.19 An application (17/00471/OUT) to deliver 1,500 homes was granted permission by Hart District Council's planning committee in July 2018. The application secured detailed permission for 181 homes in phase 1 of the development with the remaining homes to be secured through subsequent reserve matters applications. Since then, reserved matters applications have been permissioned to deliver 132 homes in phase 2 (20/01885/REM) and 331 homes in phase 3 (21/02871/REM).
- 3.20 At April 2024, 245 homes had been completed on site. This is comprised of 46 completions in 2020/21, 64 completions in 2021/22, 66 completions in 2022/23 and 69 completions in 2023/24.
- 3.21 Projected delivery rates provided by the developer were incorporated into the table set out at [Appendix 7](#). This sets out that 403 homes have been included in the five-year supply and the site is expected to complete in 2039/40.

## Windfall allowance

- 3.22 Windfall sites are sites not specifically identified in the development plan. The [NPPF](#) states that an allowance can be made for windfall sites as part of anticipated supply (paragraph 75).
- 3.23 Planning applications on such sites are regularly submitted and approved in Hart district, and this is expected to continue. Policy SS1 in the Hart Local Plan 2032 allows for windfall development within settlement boundaries and, in certain circumstances, in the countryside (see HLP32 Policy NBE1 Development in the Countryside).
- 3.24 [Appendix 8](#) sets out the approach to windfall sites in full and concludes that a windfall rate of 120 homes per annum (60 per annum on sites of 1 to 9 units, and 60 per annum on sites of 10 to 99 units) is considered reasonable whilst also being cautious to avoid over-reliance on unidentified sites.
- 3.25 The approach to a windfall allowance is based on the average annual rate of windfall completions since 2014, adjusted to avoid the inclusion of sites that would unlikely be permitted under current policies. Further discounts were then applied recognising the uncertainties that exist when extrapolating an annual average figure forward.
- 3.26 No windfall allowance is made for sites of 100 or more homes. Windfall sites of this size are unlikely to come forward on a reliable or regular basis.
- 3.27 To avoid double counting with planning permissions, no windfall rate has been included in the first three years of the five-year supply. It is assumed that any homes completed in those years will already have planning permission. This is a cautious approach as in practice some windfalls not currently with permission may be built during this period, particularly in year 3.

## Total supply of homes over the five-year period

3.28 Table 1 summarises the supply of homes over the next five years.

**Table 1: Supply of homes over the five-year period**

	2024/25	2025/26	2026/27	2027/28	2028/29	Total
<b>Deliverable sites of 1 to 9 homes</b>	40	26	34	0	0	100
<b>Deliverable sites of 10 to 99 homes</b>	5	37	10	0	0	52
<b>Deliverable sites of 100 or more homes</b>	181	170	234	257	127	969
<b>Windfall allowance for sites of 1 to 9 homes</b>	0	0	0	60	60	120
<b>Windfall allowance for sites of 10 to 99 homes</b>	0	0	0	60	60	120
<b>Total</b>	227	242	279	377	247	1,361

## 4. The five-year housing land supply calculation

4.1 Table 2 sets out the five-year land supply calculation:

**Table 2: Five-year housing supply calculation**

<b>Housing supply</b>	<b>Total</b>	<b>Annual</b>
<b>A)</b> Local plan housing requirement 2014-2032	7,614	423
<b>B)</b> Start point for five-year requirement (423 x 5)	2,115	423
<b>C)</b> Residual five-year residual housing requirement taking into account past surplus completions (2,115 – 1,373) (without a buffer)	742	148
<b>D)</b> Five-year residual housing requirement including a 5% buffer	779	156
<b>E)</b> Total supply over the next five years (see Table 1)	1,361	
<b>F)</b> Surplus supply over the next five years (E-D)	582	
<b>G)</b> Number of years supply (E/156 residual annual requirement)	8.7	

4.2 A surplus of 582 homes supply over the five-year requirement of 779 homes clearly demonstrates that the Council has at least a five-year supply of housing land.

4.3 If the total housing supply over the next five years is divided by the annual residual requirement of 156 homes per annum needed over the next five years, it gives a figure of 8.7 years supply (another way of expressing a surplus in supply over the five-year requirement having fully taken into account past surplus completions).

## 5. Housing trajectory

5.1 Hart district's Housing trajectory for the whole plan period of 2014 to 2032 is shown at [Appendix 10](#). Those homes shown for years 2024/25 to 2028/29 form the five-year housing land supply.

- At 1 April 2024, 10 years into the 18-year plan period, 5,603 homes had been completed. This is an oversupply of 1,373 homes (32.5%) compared to the 4,230 homes required up to 31st March 2024.
- Over the remaining eight years of the plan period 2,011 homes are required, an average of 251 homes per annum to 2032.
- At present we expect a surplus of 70 homes at the end of the plan period.

## Appendix 1: Housing completions 2014 to 2024

1. Housing completions in Hart district since 1 April 2014, the start of the HLP32 plan period, are set out below. These figures are all net – they take account of losses through demolition, conversion or change of use.

**Table A1 Net housing completions 1 April 2014 – 31 March 2024**

Year	Annual average number of homes required	Net number of completions	Deficit or surplus	% of annual requirement
2014/15	423	338	-85	80%
2015/16	423	705	282	166%
2016/17	423	623	200	147%
2017/18	423	551	128	130%
2018/19	423	608	185	144%
2019/20	423	607	184	143%
2020/21	423	581	158	137%
2021/22	423	582	159	138%
2022/23	423	574	151	136%
2023/24	423	434	11	103%
<b>Total</b>	<b>4,230</b>	<b>5,603</b>	<b>+1,373</b>	<b>132%</b>

2. The annual information on housing completions and outstanding commitments is compiled by Hampshire County Council on behalf of and working with Hart District Council. Evidence about completions is based on a combination of desk-based assessment – primarily building control records – and site visits.
3. Completions data can be requested by contacting [planningpolicy@hart.gov.uk](mailto:planningpolicy@hart.gov.uk)

## Appendix 2: Applying an appropriate buffer

1. A 5% buffer has been added to Hart district's residual housing requirement (the residual housing requirement is the total housing requirement over the plan period minus completions since the start of the plan period). This is required by paragraph 78 of the [NPPF](#) to ensure choice and competition in the market for land.
2. Where there has been significant under delivery of housing over the previous three years, local planning authorities should instead include a 20% buffer to improve the prospect of achieving the planned supply. Under-delivery is measured by a Housing Delivery Test result of less than 85%. In the latest Government [Housing Delivery Test measurement 2023](#) Hart district's result is 197% and so a 20% buffer is not required.

### Appendix 3: Deliverable sites of 1-9 homes at 1 April 2024

Homes with outstanding permission (including deliverable prior approvals) at 1 April 2024 on sites of 1-9 homes

## Appendix 8: Windfall allowance

### Introduction

1. Windfall sites are defined in the [NPPF](#) as “sites not specifically identified in the development plan”.
2. Paragraph 75 of the NPPF states “Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends.”
3. Planning applications on windfall sites are regularly submitted and approved in Hart district, and this is expected to continue. Policy SS1 in the Hart Local Plan 2032 allows for windfall development within settlement boundaries and, in certain limited, circumstances in the countryside (also see Policy NBE1 Countryside). However, the approach taken has been careful to avoid an over-optimistic windfall allowance.

### Methodology

4. The approach taken uses past trends which have been adjusted to avoid the inclusion of sites that would skew the data when extrapolated forward under current policies, for example, greenfield extensions to settlements granted when the previous local plan was out of date. A further precautionary discount was then applied to the ‘adjusted’ trend data, recognising the uncertainties that exist when extrapolating an annual average figure forward. No reference is made to the Hart Strategic Housing Land Availability Assessment 2016 which is now considered to be out of date.
5. Past trends for housing completions have been considered for the period 2014-2024. A time frame of this length covers periods of varying economic prosperity.
6. The housing completions data for this period was then cleansed of homes built on sites allocated in previous or current development plans. Those homes, by definition, were not built on windfall sites.
7. The remaining sites are all windfall sites. However, for the past trends to be indicative of likely future trends under current policies, the following sites were removed:

- i. Large sites resulting in extensions to settlements were removed from the data. Prior to the current local plan (HLP32) being adopted, several large sites were granted planning permission outside settlement boundaries (as they were then drawn) at a time when the previous local plan was out of date. However, such sites are not allowed under current policies.
  - ii. Rural exception sites. These sites come forward through a locally led, needs-based approach, rather than being driven by the market (see Policy HLP32 Rural Exceptions Sites). Whilst current policies do allow for these developments, they tend to come forward infrequently as exceptions, and it is prudent to remove them from the data.
  - iii. Those developments which resulted in new homes on Hart district's main employment sites. These areas are protected for employment uses in the local plan (Policy ED2 Safeguarding Employment Land and Premises).
8. With these sites removed, the windfall completions that remained provided a sound basis on which to look at past trends with a view to extrapolating forward under current policies.
9. The windfall rates for small sites of 1 to 9 homes, and sites of 10 to 99 homes, were assessed separately in case there are differences in the nature of the past trends.
10. No allowance is made for sites of 100 or more homes as these are unlikely to come forward on a reliable or regular basis under adopted local plan policies, though they are not ruled out.

## Sites removed from the completions data

11. Table A8.1 lists all of the sites that were removed from the completions data, discussed at paragraphs 6 and 7 above.

12. In Table A8.1, HLP(R) refers to the Hart Local Plan (Replacement) 1996-2006.

**Table A8.1 Sites removed from the historic completions data**

Site	Reference	Reason for exclusion
Elvetham Heath, Fleet	Pre- HLP(R)	Allocated site
Queen Elizabeth II Barracks, Church Crookham	DEV 2 in HLP(R)	Allocated site
Land Adjacent to Redfields Industrial Estate, Church Crookham	DEV 3 in HLP(R) allocated for business use but ultimately developed for housing	Allocated site
Land at Holt Lane, Hook	DEV 6 in HLP(R)	Allocated site
Land South-East of Queens Road, North Warnborough	DEV 8 in HLP(R)	Allocated site
Dilly Lane, Hartley Wintney	DEV 9 in HLP(R) and ALT DEV 9 in the HLP(R) First Alterations	Allocated site

Site	Reference	Reason for exclusion
Guillemont Barracks, Hawley (Sun Park)	DEV 10 in HLP(R) allocated for business use but ultimately developed for housing  also subsequently allocated for housing in a draft HLP32 but permitted before the submission plan was finalised and hence not allocated.	Allocated site
Redfields Garden Centre, Church Crookham	DEV15 in HLP(R) Planning application 13/02256/MAJOR "The Gables"	Allocated site
Clark's Farm, Darby Green	DEV17 in HLP(R) allocated for business use but ultimately developed for housing	Allocated site
Land off Sandhurst Road, Yateley	DEV21 and DEV22 allocated for business and leisure uses but ultimately developed for housing (Extra Care)	Allocated site
Reserve Housing Site, West of Hitches Lane, Fleet (Edenbrook)	DEV23 in HLP(R)	Allocated site
Hartland Village	Allocated in the Hart Local Plan (Strategy and Sites) 2032	Allocated site
Burford, West Street, Odiham	19/02541/FUL - Site allocated in the Odiham and North Warnborough Neighbourhood Plan (Site ii, 4 Western Lane)	Allocated site
Crumplins Business Court Land Adjacent Dunleys Hill, Odiham	16/00635/FUL - Site allocated in the Odiham and North Warnborough Neighbourhood Plan	Allocated site

Site	Reference	Reason for exclusion
The Bungalow, Crondall	19/02244/FUL - Site allocated in the Crondall Neighbourhood Plan	Allocated site
Land to the north of London Road, Hook	14/00733/MAJOR, 17/01123/REM, 17/01743/REM, 18/00509/REM	Countryside site - extension to settlement
Edenbrook South, Fleet	15/00154/MAJOR, 17/00372/FUL, 18/02150/FUL	Countryside site - extension to settlement
Land North of Netherhouse Copse, Fleet	16/01651/OUT, 18/01795/REM, 19/01472/REM, 19/02251/REM, 19/02471/REM, 21/02782/OUT	Countryside site - extension to settlement
Land at Watery Lane, Fleet	17/00264/REM	Countryside site - extension to settlement
Moulsham Lane, Yateley	17/02793/REM	Countryside site - extension to settlement
Hatchwood Place Land adjacent to Farnham Road, Odiham	13/02085/MAJOR	Countryside site - extension to settlement
Rifle Range Farm, Fleet Road, Hartley Wintney	14/00593/MAJOR	Countryside site - extension to settlement
Land at Odiham Road, Riseley	18/00242/REM	Countryside site - extension to settlement
Hatchwood Cottage Land, South of Farnham Road, Odiham	16/00606/REM	Countryside site - extension to settlement

Site	Reference	Reason for exclusion
Land adjacent to Reading Road, Hook	15/00697/REM	Countryside site - extension to settlement
Land at Knight Close, Crookham Village	14/01152/MAJOR	Countryside site - extension to settlement
Dilly Lane (Phase 2), Hartley Wintney	12/02427/MAJOR	Countryside site - extension to settlement
Broden Stables, Crondall	16/02377/FUL	Countryside site - extension to settlement
Hawley Park Farm, Hawley	18/00334/FUL	Countryside site - extension to settlement
Land Adjacent the Coach House And Oak Hollow Reading Road Eversley Centre Hook	03/00019/FUL	Rural exception site
Land At Gaston Lane South Warnborough Hook	05/02332/FUL	Rural exception site
Land North of Reading Road, Eversley, Hook	12/02114/FUL	Rural exception site
Land to the North Of Cowfold Lane, Rotherwick, Hook	13/00254/FUL	Rural exception site
Bartley House, Hook	16/03378/FUL	Main employment site

Site	Reference	Reason for exclusion
Landata House, Hook	15/01603/FUL	Main employment site
Greenwell Providence House, Hook	16/00883/PRIOR, 17/02465/FUL	Main employment site
Fleet House, Fleet	16/01267/PRIOR, 16/03332/FUL	Main employment site
Lorica House, Fleet	18/00649/PRIOR, 17/01977/FUL	Main employment site
Infineon House, Fleet	18/00650/PRIOR, 17/01978/FUL	Main employment site
Oak House, Fleet	15/01857/FUL, 16/01441/FUL	Main employment site
Teksys House, Fleet	15/00137/PNDW	Main employment site
Vantage House, Hook	17/00525/PRIOR, 17/00526/PRIOR	Main employment site
Finn's Business Park, Crondall	16/00471/PRIOR	Main employment site
Silvergate, Church Crookham	19/00407/PRIOR	Main employment site
The Bungalow, Pankridge Street, Crondall	19/02244/FUL – allocated in the Crondall Neighbourhood Plan	Allocated site

13. With the sites listed above removed, the adjusted completions data from 2014 to 2024 is shown at Figure A8.

**Figure A8: Adjusted completions for small sites (1 to 9 homes) and large sites of 10 to 99 homes**

## Windfall allowance for small sites of 1 to 9 homes

14. The average annual delivery from small sites, using the adjusted completions data over the 10-year period, is 67 homes.
15. A windfall allowance of 60 homes per annum from small sites is considered reasonable without being over-optimistic. Using the adjusted completions data, 60 homes per year is 7 fewer than the overall mean since 2014 – a discount rate of 10.6%. This level of discounting provides a reasonable buffer against the delivery in any given year dipping below the average.
16. To avoid double counting with planning permissions, no small site windfall allowance is made for years 1, 2 and 3. It is assumed that homes completed in those years will already have planning permission. Table A8.2 below shows anticipated delivery from specific, deliverable small sites and the windfall allowance from small sites.

**Table A8.2 Projected completions on small sites of 1 to 9 homes**

	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	Totals
Homes under construction on deliverable sites of 1-9 units	40								40
Homes not started on deliverable sites of 1-9 units		26	34						60
Windfall allowance for sites of 1 to 9 homes				60	60	60	60	60	300

## Windfall allowance for large sites of 10 to 99 homes

17. The average annual delivery from large windfall sites of 10 to 99 homes over the 10-year period, using the adjusted set of completions data, is 81 homes per annum. This is a greater contribution to overall supply than from small windfall sites, and so it is important to include a windfall allowance from this source.
18. As Figure A8 shows, delivery from these sites tends to fluctuate more widely year to year than for small sites, reducing certainty as to what could happen in future years. This suggests a greater degree of caution is required when developing a windfall allowance i.e., a greater degree of discounting is needed when projecting past annual average completions forward.
19. A round figure of 60 homes per year is considered a reasonable estimate of future windfall from sites of this size. This amounts to a 25.8% discount from the average levels of delivery, which is a sizeable discount, but which also recognises the contribution that these sites do make to supply.
20. To avoid double counting with planning permissions, no windfall allowance is made for years 1, 2 and 3. This is a cautious approach because in practice some windfall could take place within that 3-year time frame from sites yet to secure planning permission. Table A8.3 below shows the large site windfall allowance going forward alongside projected completions from deliverable sites of 10 to 99 homes.

**Table A8.3 Projected completions on large sites of 10 to 99 homes**

	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	Totals
Deliverable sites of 10 to 99 homes	5	37	10						52
Windfall allowance for sites of 10 to 99 homes				60	60	60	60	60	300

## **Appendix 9: Sites allocated in neighbourhood plans**

### **Odiham & North Warnborough Neighbourhood Plan**

The Odiham and North Warnborough Neighbourhood Plan allocates seven sites for new homes under Policy 2. At 1 April 2024, two were completed, one has permission and forms part of the five year supply, and four have yet to be granted permission:

- Land at Crumplins Yard (Ref.16/00635/FUL) was completed in 2020/21 and is counted in the completions figures at Appendix 1.
- Land at 4 Western Lane (19/02541/FUL) was completed in 2022/23 and is counted in the completions figures at Appendix 1 (site also referred to as Burford, West Street).
- Land on the West Sides of Alton Road (21/00777/OUT) has been given permission to deliver 30 homes and forms part of five-year supply as a deliverable site (site also referred to as Crownfields).
- The remaining four sites did not have planning permission at 1 April 2024. These sites do not form part of the five-year land supply but are included in the housing trajectory for the plan period to 2032. Table A9.2 provides updates on these sites and estimates of when they will be built.

**Table A9.1 Housing trajectory for sites allocated in the Odiham and North Warnborough Neighbourhood Plan**

Site Name	Number of homes	2029/30	2030/31	2031/32	Comment
Land at Hook Road	15	15			Applications to deliver 22 homes were granted subject to legal agreement by Hart's Planning Committee (23/02094/FUL & 23/02095/FUL)
Land at Albion Yard	12		12		An application was refused in July 2019 (19/00543/FUL)
Land at Dunley's Hill	30	15	15		An outline application was refused in March 2024 and has since been appealed (23/02063/OUT)
Land at Longwood	9			9	A pre-app to construct 34 retirement apartments was submitted in August 2024 (24/01701/PREAPP)
<b>Total</b>	<b>66</b>	<b>30</b>	<b>27</b>	<b>9</b>	

### **Crandall Neighbourhood Plan**

The Crandall Neighbourhood Plan allocates three sites for new homes under Policy 2:

- The Bungalow, Pankridge Street (19/02244/FUL) was completed in 2022/23 and is included in the completions figures at Appendix 1.
- 18 St Cross Road (20/02618/FUL) is under construction and included within the five-year supply as a deliverable site.
- Land at Marsh Farm (22/01859/FUL) was granted permission for 9 homes on 20 March 2024 and is included within the five-year supply as a deliverable site.

## Appendix 10: Housing trajectory 2014 to 2032 at 1 April 2024

	2014/15	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31	2031/32	Totals
