

Here for Hart Bulletin

Summer 2024, Issue 15

Keeping local community partners up to date with the latest activity from the Here for Hart programme and shining a light on community initiatives and services.

In this issue we highlight ways to stay active with a disability and/or health condition as well as addressing the difficult, yet often unmentioned, topic of incontinence. As usual we will be bringing you up to date with the work of local community groups and charities.

Here for Hart is a programme coordinated by Hart District Council. It is the umbrella under which we are working with our partners and communities to help people stay well, feel included in their community, and be supported through the challenges they face.

You can contact us at hereforhart@hart.gov.uk For printed copies of this bulletin please visit the council offices in Fleet or email hereforhart@hart.gov.uk

Incontinence – management, prevention, reversal

Incontinence can negatively impact people's quality of life hugely, and in Hampshire over a quarter (25.6%) of people aged 65 years and over experience urinary incontinence. However, it is not an inevitable part of ageing and there are simple things that can be done to prevent, manage or in some cases even reverse it.

The [continence checklist](#) was developed in consultation with NHS continence services. The checklist can be printed out and is designed to be used as a physical resource for older adults who may experience difficulties accessing digital information. It can also be accessed online.

The aim of the checklist is to highlight simple actions that anyone can undertake to prevent, reduce and better manage incontinence. The advice in the leaflet explains things to look out for, from toileting habits, diet and lifestyle factors to sharing tips and guidance for males and females impacted by incontinence.

Individuals who are experiencing incontinence should always seek advice from a healthcare professional. Hart has two continence support services, depending on which surgery a patient is registered at

NHS Surrey Continence Treatment and Promotion Service – for patients registered with Hart Health Partnership (Fleet Medical Centre & Branksomewood Surgery), Richmond Surgery in Fleet, and Crondall New Surgery – Referral can be made through your doctor or a health care professional.

[Continence Treatment and Promotion Service - Surrey Adult Community Services \(surreynehantscommunityservices.nhs.uk\)](https://surreynehantscommunityservices.nhs.uk)

Southern Health Continence Service –for patients registered with Oakley Health Group (Monteagle Surgery, Hartley Corner & Yateley Medical Centre), Whitewater Health (Hartley Wintney Surgery & Hook Surgery) and Odiham Health Centre - Referral can be made via an online form, email or telephone. Individuals can self-refer. - [Community Bladder and Bowel Service Southampton | Solent NHS](#)

Boys Need Bins

Prostate Cancer UK's 'Boys Need Bins' campaign works to raise awareness about male incontinence and the need for sanitary bins in male toilets. Incontinence can affect men as they get older and as many as 69% of those treated with surgery for prostate cancer may experience urinary incontinence as a result.

Campaign Results

In support of this campaign Hampshire County Council (HCC) recently announced that male toilets in HCC premises, including country parks and libraries will have sanitary bins added to cubicles.

Govia Thameslink Railway (GTR) has also recently put bins in 495 toilet cubicles at 228 of its stations, offices and depots across its network in the south of England.

Calls & Visits

We've been out-and-about delivering leaflets about our befriending service in Hart. We've seen a decline in referrals from GPs but we are convinced that this does not mean there are fewer housebound folk feeling isolated who would love to be visited - so how do we reach them? We appreciate that not everyone is able to be online, so we're spreading the word in traditional ways too.

Homestart Hampshire

Home-Start Hampshire is a local charity supporting parents who are going through challenging times with children under the age of 11. Trained volunteers work alongside families to give compassionate and confidential support, tailored to each family.

Our family group at Elizabeth Hall in Hook is open to families who live in either Hartley Wintney, Hook or Odiham, are isolated and are facing family challenges. The group runs on a Wednesday from 10am – 11.30am.

We currently have funding to support Military families in the area with home visiting support. If you are finding being a parent tough and feel that you would benefit from a little extra help then please contact us on 0330 124 2095 or familysupport@hshants.org.uk for more information.

Referrals for either service can be made here: [Referrals | Home-Start Hampshire](#) or you can call 0330 124 2095 for more information.
