

How to become a Hackney Carriage or Private Hire Driver

This is a quick guide to explain the different types of licences available and the application process. This information only applies to Hart District Council, for other areas of the UK, contact your local Council. In conjunction with these guidance notes it is **crucial** you read **the Hackney Carriage & Private Hire Licensing Policy** which can be found here <https://hart.gov.uk/taxis>

Hackney Carriage or Private Hire?

Both hackney carriage and private hire vehicles transport members of the public to a specific destination upon request, in exchange for payment of a fare. However, only a licensed hackney carriage may ply for hire. Private hire drivers are not allowed to ply for hire. Plying for hire is an offence under the Town Police Clauses Act 1847 and carries a maximum penalty of £2,500.

Hackney carriage vehicles, referred to as taxis, are fitted with a taxi roof light and a fare meter and may ply for hire, i.e. be flagged down in a street by the public. They are also permitted to stand at taxi ranks. Drivers are required to comply with local Byelaws.

The driver of a hackney carriage vehicle is not entitled to charge the hirer a fare for their journey higher than the fare prescribed by the Hart District Council fare table. There are no restrictions however, on the fares which can be charged for Private Hire journeys.

A hackney carriage vehicle can only be driven by a driver who holds a dual hackney carriage and private hire driver's licence. Licences are granted to hackney carriage vehicles to be used primarily within this District to:

- carry passengers for hire or reward
- be hailed by a prospective passenger
- park on a rank to await the approach of passengers
- ply for hire
- be pre-booked for journeys either direct or through a licensed private hire operator.

Private hire is the provision of a vehicle and driver to undertake a journey carrying passengers from one location to another for a fee. The journey may only be undertaken if **booked in advance with a licensed private hire**

operator. Three licences are required in order to undertake a private hire journey:

1. Private hire operator licence - This authorises a company or an individual to receive bookings and dispatch licensed vehicles and drivers to undertake bookings. The Operator base must be within the controlled District, i.e. the Hart District.

2. Private hire driver's licence - This authorises a driver to drive licensed vehicles to carry the passengers.

3. Private hire vehicle licence - This authorises a specific vehicle to be used for carrying the passengers.

Private hire vehicles may have a fare meter fitted, however they cannot ply for hire or stand at taxi ranks. Drivers are required to comply with licence conditions.

Private hire drivers must not accept bookings from anyone other than their licensed Operator. Private hire drivers must not draw attention to themselves as being available for hire or provide his/her own telephone number. A gesture accompanied by a conversation with a member of the public suggesting that a private hire driver is available for hire without a prior booking from a licensed operator will be seen as unlawful. A private hire driver must not allow any passenger to enter their vehicle without first having received a booking via their licensed operator. Private hire drivers are not allowed to set down or pick up passengers from a taxi rank even if booked through a licensed operator.
