Comments from: M.C Thomas— [REDACTED]

I strongly support the reasoning for the maintenance of *gaps* in the draft Neighbourhood plan.

The green spaces or *gaps* are so vital to the health and well-being of our village residents.

It is essential that these green spaces *gaps* are preserved. There are many examples where

.development has gone ahead in these areas, nibbling away at the *gap* regions reducing

.the areas of green space. If we are genuinely committed to the health and well-being of our

.residents there must be effective measures to ensure preservation.

There are many reasons I support the evidence in the draft which include:

- A. Maintenance and protection of the landscape within the *gaps*.
- B. Keeping the separate identity of Fleet, Crookham Village, Church Crookham and Dogmersfield.
- C. Allowing villagers a short distance using footpaths to a natural environment.

I hope these comments help in defence of the village against future planning proposals within *gaps*.
