To: Neighbourhood Planning <neighbourhoodplanning@hart.gov.uk>

I fully support the concept of Crookham Village gaps as set out in the local plan. It maintains the character of the village, something which I understood to be a conservation area. To breach these gaps would be devastating for the nature and character of Crookham Village, the quality of life of residents and the wildlife with whom we share this land.

I am utterly astounded at the planning decisions that have been made recently and very much hope we can finally enjoy some respite from endless planning applications and appeals.

Gavin Sheppard
