Re: Appendix 3 supporting evidence for the whole Policy NE01 Preserving the Gap Between Settlements.

Name and Address: Mrs Caroline Killen [REDACTED]
[REDACTED]

Dear Sirs

As a resident of Crookham Village I am writing to strongly confirm my belief that Appendix 3 is valid evidence in support of the Local Gap policy.

It has been made very clear from previous consultations that the Local Gap is extremely important to the community. Like my neighbours I have chosen to live in a village which has it's own separate identity and it would be heart breaking to see this lost and Crookham Village simply become part of a larger conurbation.

The unique and diverse character of the landscape is important for conservation and acts to preserve the linear nature of our historic village and help maintain it's separate identity. I use the footpaths on Grove farm and Cross farm on a daily basis to walk my dogs as do countless other local residents. We have already lost a large part of the Local Gap at Grove farm to development and I sincerely hope we do not loose any more !

Caroline Killen
