Re: Appendix 3 supporting evidence for the whole Policy NE01 Preserving the Gap Between Settlements.

Name and Address: Juergen Halten, [REDACTED] [REDACTED] [REDACTED]

Dear Neighbourhood Planning Team

I support the whole Policy NE01 as me and my family often go for walks there which is always relaxing and there is hardly any need for us to take the car in order to go for a nice walk (which is good for the environment). We appreciate the diverse landscape where you can still see lots of wildlife like herons and deer.

There have already been developments which have reduced the gaps and it is now more important than ever to keep what is still left.

Best wishes

Juergen Halten
