

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
Blackwater & Hawley	Blackwater & Hawley Leisure Centre - improvements to parking to increase use and access for people with disabilities	Parish Council	£80,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Key Conclusion -Quantity of Provision), and The Accessibility of Provision), Hart Leisure Strategy 2007-2018 (Policy FD15) Environment, Health and Wellbeing)	This proposal would enhance access to an existing community facility for people with disabilities. Implementation of the project would meet Hart Community Strategy and Hart Leisure Strategy objectives. Sufficient infill development is likely to take place within the Parish to increase demand for access to this important local community facility.	£80,000
	Blackwater & Hawley Leisure Centre - new gym equipment to provide alternative local facilities for people who do not unable to go to Fleet or Frogmore	Parish Council	£50,000	Hart Community Strategy 2005-2015 (Priority Aims, Environment, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Key Conclusion - Quantity of Provision, and Accessibility of Provision), Hart Leisure Strategy 2007-2018 (Policy FD8)	Frogmore Leisure Centre is within 15 minute drive time of Blackwater & Hawley and is one of two Hart District Strategic sites both of which have spare capacity. Having regard to the advice of Circular 05/05: Planning Obligations, given the availability of existing facilities nearby it would be difficult to demonstrate that a further obligation is necessary to make any new housing development acceptable in planning terms. In these circumstances, any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
	Blackwater & Hawley Leisure Centre - Sports field drainage to increase capacity in use	Parish Council	£25,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Need: Key Conclusions - Quality of Provision, and Priorities: Pitch issues - Football), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance increased capacity of use. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is a need for better football pitches. The assessment also recommends that it is better to focus resources on improving the quality of facilities that than spreading and resources even more thinly on providing new sites. Sufficient infill development is likely to take place within the Parish over the next 5-7 years confirm a demand for the facility along with an associated need to increase the capacity of use.	£25,000
	Blackwater & Hawley Leisure Centre - new goal posts	Parish Council	£400	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Key Conclusions - Quality of Provision), Hart PPG17 Assessment (Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance use of the football pitch. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is a need for better football facilities.	£400
	Hawley Leisure Centre footpath	Parish Council	£15,000	Hart Community Strategy 2005-2015 (Priority Aims Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Accessibility and Alternatives to car)	This is not an open space/leisure project. This project should be funded separately through Transport developer contributions. The District Council already holds within the Parish area of Hawley & Blackwater £23,750 of unallocated highway contributions.	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	Youth Shelter	Parish Council	£25,000	Hart Community Strategy 2005-2015 (Priority Aims Community Safety, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Key Conclusions: Quantity of Provision, Priorities (make better provision for teenagers), Youth Issues (no provision for 16/17 year olds and need for youth shelters/pods), and Parish and Town Councils - Overview, Accessibility Assessment: Teenage areas (Blackwater poorly served), Issues and Options: Provision for Teenagers), Hart Leisure Strategy 2007-2018 (Policy FD13)	This proposal would provide enhanced youth provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure both the need for and deliverability of this project. The Head of Leisure Services considers however, that the submitted quote is double the normal cost. It is recommended that the bid supported in principle but a reduced contribution (50%) recommended.	£13,000
Crandall	Skate Park	District Councillor	£90,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced youth provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is an identified need to make better provision for children and teenagers specifically in Crandall. The project is deliverable as it is likely that reasonable infilling will take place within the parish area over the next 5-7 years to confirm the need for the facility.	£90,000
Church Crookham	Multi Use Games Area (MUGA) Azalea Gardens	Parish Council	£50,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced youth provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is an identified need to make better provision for children and teenagers specifically in the southern half of Fleet/Church Crookham. The project is deliverable as it is likely that reasonable infilling will take place within the parish area on the next 5-7 years to confirm the need for the facility.	£40,000

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	Skate/wheeled area at Peter Driver Sports Ground	Parish Council	£100,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced youth provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is an identified need to make better provision for children and teenagers specifically in the southern half of Fleet/Church Crookham. The project is deliverable as it is likely that reasonable infilling will take place within the parish area on the next 5-7 years to confirm the need for the facility.	£100,000
	Open Space enhancements at Azalea Gardens	Parish Council	£100,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced youth and community provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is an identified need to make better provision for children and teenagers specifically in the southern half of Fleet/Church Crookham. The project is deliverable as it is likely that reasonable infilling will take place within the parish area on the next 5-7 years to confirm the need for the facility	£100,000
	Community Garden at Sian Close	Parish Council	£20,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced local community provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. The project is deliverable as it is likely that reasonable infilling will take place within the parish area on the next 5-7 years to confirm the need for the facility	£20,000
	Enhancements to play and recreational facilities at Quetta Park	Parish Council	£50,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would provide enhanced youth and community provision. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that there is an identified need to make better provision for children and teenagers specifically in the southern half of Fleet/Church Crookham. The project is deliverable as it is likely that reasonable infilling will take place within the parish area on the next 5-7 years to confirm the need for the facility	£50,000

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
Crookham Village	New Village Play area	Parish Council	£60,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This bid is not supported. £361,000 of S106 funds has recently been spent on refurbishing the existing Zebon Copse (Velmead) Community Centre and play area. It is not a project that is identified within the emerging Parish Plan and furthermore, it is unlikely that outside the emerging Local Development Framework any significant development will take place within the local area to justify an overriding need for this project. Also, no site has been identified and there is no evidence of possible deliverability within a reasonable time period (5-7 years). In these circumstances, the project is not necessary to make development acceptable and any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
	Replacement facility for the WI Hall	Parish Council	£500,000	No evidence base of need and not a project identified in the emerging Parish Plan.	This bid is not supported. £361,000 of S106 funds has recently been spent on refurbishing the existing Zebon Copse (Velmead) Community Centre and play area. It is not a project that is identified within the emerging Parish Plan and furthermore, it is unlikely that outside the emerging Local Development Framework any significant development will take place within the local area to justify an overriding need for this project. Also, there is no evidence of possible deliverability within a reasonable time period (5-7 years). In these circumstances, the project is not necessary to make development acceptable and any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
	Zebon Copse Centre - extension to car park for users of the facilities	Parish Council	£18,000	The emerging Parish Plan identifies a need to improve the facilities at Zebon Copse Centre.	There is an identified issue with regard to the need to improve the Zebon Copse (Velmead) Community Centre and any additional development will undoubtedly put greater pressure for further on-site parking. The proposal however, requires planning permission to first be granted and this also raises the issue of loss of open landscaped areas. Therefore, until a proper business case is developed and planning permission granted the scheme has not yet reach the stage where it is deliverable. This scheme should therefore be reviewed and re-considered once a more detail project plan and business case has been developed.	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	<p>Pilcot Road Footway (used to access Dogmersfield school with its hall facility and the local pub and cricket field and pavilion - extremely well used by pedestrians for the annual Fete - and also a link to the footpaths in Crookham Village and Dogmersfield parishes</p> <p>Redfields Lane footway - access to school with its hall facility.</p> <p>Brook Hill footway (Cron dall Road) - access to local pub and footpaths and Basingstoke Canal</p> <p>Cron dall Road - access to footpaths, local pub and Basingstoke Canal.</p>	Parish Council	Not confirmed	Hart Community Strategy 2005-2015 (Priority Aims Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Accessibility and Alternatives to car)	These are not an open space/leisure projects. These project should be funded separately by Hampshire County Council through Transport developer contributions.	£0
Eversley	Lower Common Play Area – Junior Trim Trail	Parish Council	£6,392	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions -Quantity of Provision (Opportunities for active recreation in the countryside), Parish and Town Councils: Area-specific Findings - Eversley)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that the Assessment supports the development of youth facilities as well as making better use of parks, gardens and commons. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£6,392
	Lower Common Play Area – Adventurous Climbing and Balancing Trail	Parish Council	£13,500	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions -Quantity of Provision (Opportunities for active recreation in the countryside), Parish and Town Councils: Area-specific Findings - Eversley)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that the Assessment supports the development of youth facilities as well as making better use of parks, gardens and commons. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£13,500

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	Lower Common Play Area – Play Area Fence	Parish Council	£300	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions -Quantity of Provision (Opportunities for active recreation in the countryside), Parish and Town Councils: Area-specific Findings - Eversley)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that the Assessment supports the development of youth facilities as well as making better use of parks, gardens and commons. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£300
	The Great A Village Green - Car Park. Improvements to increase access to the site which currently is reached by a public footpath and a walk beside a busy road.	Parish Council	£850	Hart Community Strategy 2005-2015 (Priority Aims Transport and Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions -Quantity of Provision (Opportunities for active recreation in the countryside), Parish and Town Councils: Area-specific Findings - Eversley)	This proposal would enhance access to an important community facility especially for people with disabilities. Its implementation would meet Hart Community Strategy and Hart Leisure Strategy objectives. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£850
	Up Green Restoration Phase 1 - provide effective drainage , thin out undergrowth throughout the site, create 3 or 4 small clearings by removing undergrowth and larger trees. Create a path for people to walk round the inside of the wood.	Parish Council	£950	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions- The Quantity of Provision (better management and maintenance of greenspace), Quality of Provision (overall quality generally low), Parish and Town Councils - Area-specific Findings: Eversley), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance community access to the countryside. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. However, whilst the principle of the project is supported, there is a need to provide details as to the status of the land and whether it will affect biodiversity in this area before funds are released to implement the project.	£950
	Feasibility Study for Tennis Facility at Eversley Sports Association site.	Eversley Sports Association	£4,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Area-specific Findings - Eversley), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal could result in enhance tennis development within the District but will need to demonstrate need. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and may accord with recommendations of the Hart PPG17 Assessment. The feasibility project could then form a later assessment of whether the new facility could be justified in the context of need and developer contributions.	£4,000
	Provision of extended tennis facility (subject to feasibility study) at Eversley Sports Association.	Eversley Sports Association	£200,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Area-specific Findings - Eversley), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance tennis development within the District. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and may, subject to further justification, accord with the recommendations of the Hart PPG17 Assessment. However, it relies first upon agreement through a feasibility study and furthermore, unless	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
					new land is allocated for development within the parish, it is unlikely that on its own sufficient infill development will take place over the next 5-7 years to ensure deliverability of this project through developer contributions alone. In these circumstances, any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010. The project should therefore be re-considered once the outcome of the feasibility has been assessed and either sufficient development or supplementary funding identified.	
	Football training facility at Eversley Sports Association. This has already been the subject of a detailed evaluation. A report with design, capital and operating costs has been prepared. It is based upon an all weather "Football 50"v playing surface with an area of 88 m x 36 m on land at the entrance to Eversley Sports Association's 12 acre playing field.	Eversley Sports Association	£200,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions - Quality of Provision (more and better football pitches), Area-specific Findings - Eversley), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance football development within the District. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. However, unless new land is allocated for development within the parish area, it is unlikely that on its own sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project through developer contributions alone even if the Sports Association were to secure the agreement of other parish areas to contribute towards its costs. It therefore requires supplementary funding which, at this stage has, not yet been identified. In these circumstances, any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010. The project should therefore be re-considered once the outcome of the feasibility has been assessed and either sufficient development or supplementary funding identified.	£0
	The 12 acre playing field that the Eversley Sports Association created by in-filling and reclaiming an area of gravel working has been levelled, grassed and drained to a high standard. The proposal is to provide irrigation using an adjacent lake and stream with permission from the land owners, CEMEX, and the EA. This involves digging a large sump/reservoir, installing a pump and pipe	Eversley Sports Association	£23,500	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Area-specific Findings - Eversley), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance youth football development within the District. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. However, unless new land is allocated for development within the parish area, it is unlikely that on its own sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project through developer contributions alone even if the Sports Association were to secure the agreement of other parish areas to contribute towards its costs. It therefore requires supplementary funding. In these circumstances, any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	work and purchase of field irrigation equipment.				Good Practice Note 16/2010. The project should therefore be re-considered once the outcome of the feasibility has been assessed and either sufficient development or supplementary funding identified.	
	The Eversley Sports Association playing field at Fox Lane requires additional equipment for its use to be fully effective. The Eversley Football Club, one of the partners in the Association, has won promotion to a higher league and to remain in that league it is required to meet the standards laid down by the Football Association. These include enhanced facilities for spectators such as covered stands, dugouts and concrete hard standing none of which were envisaged at the time of project planning and costing. These additions are mandatory.	Eversley Sports Association	£43,530.	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Area-specific Findings - Eversley), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance football development within the District. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Unless new land were allocated for development however, it is unlikely that on its own sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project through developer contributions alone even if the Sports Association were to secure the agreement of other parish areas to contribute towards its costs. Implementation of the project will require substantial supplementary funding from other sources. In these circumstances, any obligation to contribute towards this project would fail to meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010. The project should therefore be re-considered once the outcome of the feasibility has been assessed and either sufficient development or supplementary funding identified.	£0
	Eversley Sports Association (ESA) 12 acre playing field and car park require additional landscaping.	Eversley Sports Association	£10,000	This is an environmental improvement initiative unrelated to any Open Space or Leisure Strategy policy	This is a landscape environmental improvement initiative unrelated to any Open Space or Leisure Strategy policy. It does not comply with the purposes of securing open space/leisure contributions and would not satisfy the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
Fleet	Oakley Park. Access improvements to support wheelchair and buggy users	District Council	£100,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Need: Key Conclusion -Quantity of Provision), and The Accessibility of Provision), Hart Leisure Strategy 2007-2018 (Policy FD15) Environment, Health and Wellbeing)	This proposal would enhance access to an existing community facility for people with disabilities. Its implementation would meet Hart Community Strategy and Hart Leisure Strategy objectives. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to confirm both need and ensure deliverability of this project.	£100,000
	The Views. Modernise and enhance play facilities	District Council	£75,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the	£75,000

				town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	Parish over the next 5-7 years to confirm need and also ensure deliverability of this project.	
	Basingbourne Recreational Area. Modernise and enhance play facilities	District Council	£75,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment (the need for improved or enhanced play areas with Fleet/Church Crookham). Sufficient infill development is likely to take place within the Parish over the next 5-7 years to confirm need and also ensure deliverability of this project.	£75,000
	Ancells Farm - upgrade play area	District Council	£75,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment (the need for improved or enhanced play areas with Fleet/Church Crookham). Sufficient infill development is likely to take place within the Parish over the next 5-7 years to confirm both need and to ensure deliverability of this project.	£75,000
Greywell	Greywell Fen - Extension to boardwalk	Parish Council	£15,000	Hart PPG17 Assessment (Local Need: Key Conclusions - Quantity of Provision (better access to the countryside) through creation of more paths), Countryside Issues (footpath network should be improved)	This proposal would enhance access to an important community facility especially for people with disabilities. Its implementation would meet Hart Community Strategy and Hart Leisure Strategy objectives. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. However, future funding for parish projects in Greywell will need to be reviewed if current planning permissions within the parish are implemented.	£15,000
Hartley Wintney	Provision of a small multipurpose grass sports pitch for all ages, but in particular youth football and cricket on the existing Open Space land at Church View, Hartley Wintney	Parish Council	£20,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Need: Key Conclusions - Quantity of Provision (more and better football pitches,) Football, and Quantity of provision), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment (the need for improved or enhanced play areas with Fleet/Church Crookham). Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure	£20,000

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
					deliverability of this project.	
	Provision of a large (around 7 acre) dedicated sports facility for Hartley Wintney to include a club house, cricket pitch, football pitch, up to 5 tennis courts and a bowling green.	Parish Council	£1,000,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of provision (more and better football pitches), Accessibility: Accessibility Conclusions (need for bowling green in Hartley Wintney), Issues and Options: Provision in the Western Part of the District (tennis courts at Hartley Wintney), Hart Leisure Strategy 2007-2018 (Policy FD6, FD8, FD9)	In principle the Head of Leisure supports the tennis court and the bowling green element of this project but not the remainder as it would directly compete with the facilities provided with 15 minutes drive at Hitches Lane. Furthermore no site has been identified or business case prepared to confirm deliverability within a reasonable time scale. Substantial supplementary funding would also be required as insufficient land is identified within the parish for future development to secure funding solely through developer contributions over the next 5-7 years. At this stage therefore, the project fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010. However, it is recommended that contributions be sought only to finance the carrying out of a feasibility study. Implementation of the wider project could then be considered as part of the emerging Hart LDF.	£10,000
	Victoria and Appleton Halls are located on West Green Road, Hartley Wintney - Provision of passage/walkway and open space lighting along the length of the Victoria Hall passage/walkway – A30 side, and rear land space, extend the current car park lighting to the A30 side and rear of the halls to provide lighting, and CCTV cameras.	Parish Council	£8,750	Hart Community Strategy 2005-2015 (Priority Aim Transport, Community Safety), Hart PPG17 Assessment 2006 (Local Need: Key Conclusion - Accessibility of Provision (making pedestrian and cycle access easier or more convenient), (Hart Leisure Strategy 2007-2018 (Policy FD17)	This proposal would enhance community access to Victoria and Appleton Halls. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to confirm both need and also to ensure deliverability of this project.	£8,750
	New Crematory at St Mary's Church, Harley Wintney	Parish Council	£50,000	Hart PPG17 Assessment 2006	There is demonstrable need for increased burial facilities within the parish. Planning permission has been granted and sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£50,000
Hook	Provision of allotments (4 acres) – a site for 120 pitches has been made available at Reading Road, Hook.	Parish Council	£100,000	Hart Community Strategy 2005-2015 (Priority Aim Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Accessibility Assessment - District Wide View: Bowling Greens (need in Hook)), Hart Leisure Strategy 2007-2018 (Policy FD16)	The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment in that it would provide allotment in the immediate Hook area where there is both a deficiency and an identified need.	£100,000

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
	Provision of football/sports pitches and the provision of a pavilion for the users (4 full size pitches and 6 mini pitches).	Parish Council	£450,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Need: Key Conclusions - Quantity of Provision (more and better football pitches,) Football, and Quantity of provision), Hart Leisure Strategy 2007-2018 (Policy FD9)	There is no land currently identified for additional sports pitches and so in the absence of identified land it is not possible to demonstrate that the proposal is deliverable within the next 5-7 years. At this stage therefore, if fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010. However, this project may be delivered separately through the emerging LDF Core Strategy as part of a strategic site allocation approach without the need to collect developer contributions.	£0
	Improved Hook Community Centre to comprise: refurbishment of existing building, enhanced facilities for people with disabilities, enhanced Youth facilities, community café, improved indoor sports facilities, provision of safe outdoor play area for the pre-school and adequate accommodation with storage facilities, extend the facilities provided for the Parish Council to give a dedicated place for meetings with residents and partners.	Parish Council	£500,000	Hart Community Strategy 2005-2015 (Priority Aim Transport, Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Youth Issues - The Base Youth Centre in Hook, Parish and Town Councils - Area-specific findings: Hook (Improvements to Community Centre))	This proposal would provide enhanced community facilities within the parish. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Unless new land were allocated for development however, it is unlikely that on its own sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project through developer contributions alone. The Project is therefore supported in principle subject to a feasibility study. However, final implementation of the project will require substantial supplementary funding from other sources or could otherwise be delivered separately through a strategic site allocation in the emerging Local Development Framework (LDF). At this stage therefore, in the absence of a detailed business case, the project does not meet the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010 but this position should be reviewed through the emerging LDF.	£0
Long Sutton	Erect safety fencing around the play equipment at The Recreation Ground rear of Long Sutton Primary School, Hyde Road, Long Sutton. The fencing is required to prevent dogs entering the play area and fouling.	Parish Council	£4,000	Hart Community Strategy 2005-2015 (Priority Aims: Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Needs: Key Conclusions - the priority should be to enhance quality rather than quantity), Hart Leisure Strategy 2007-2018 (Policy FD8)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Limited infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project.	£4,000
Mattingley	Improvements and upgrading to Hound Green open grassed area to increase capacity and secure environmental improvements	Parish Council	£2,500	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions - The Quantity of Provision (better management and maintenance of greenspace), Quality of Provision (overall quality generally low,	The nature of the work has not been specified. This project is therefore, not supported. The Head of Leisure Services comments that no project on this site should be supported or carried out unless it is in consultation with Hart DC and Hampshire County Council. A locally sensitive wildlife site (SINC) has been damaged by previous work despite advice from Hart DC and Hampshire County Council. It is also	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
				Parish and Town Council: Area -specific findings: Mattingley (Hound Green - improve condition)), Hart Leisure Strategy 2007-2018 (Policy FD15)	unclear how this project is related to demands crated by new development as there is very limited opportunity for development within the parish. At this stage therefore, the project fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	
	Provision of Community Hall for Mattingley Parish	Parish Council	£400,000		The Parish is very small. It is unclear how this project is related to demands crated by new development as there is very limited opportunity for development within the parish. Significant supplementary funding would be required from an unknown source. Furthermore, no site has been identified or business case prepared to confirm deliverability within a reasonable 5-7 year time scale. At this stage therefore, the is no evidence to make development unacceptable without this project and it also fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
	Purchase of Mattingley Green - designated common land (CL105) to enable improvements and full management	Parish Council	£60,000	Hart Community Strategy 2005-2015 (Priority Aims: Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Local Needs: Key Conclusions - the priority should be to enhance quality rather than quantity), Hart Leisure Strategy 2007-2018 (Policy FD8)	This proposal would bring enhanced public management to common land. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the findings and recommendations of the Hart PPG17 Assessment. It is unclear however how this project is related to demands crated by new development as there is very limited opportunity for development within the parish. Unless new land were allocated for development however, it is unlikely that on its own sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project through developer contributions alone. Final implementation of the project will require substantial supplementary funding from other sources. At this stage therefore, the project fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
Odiham	Odiham Tennis Club. Additional courts	Odiham Tennis Club	£25,000	Hart Community Strategy 2005-2015 (Priority Aim Transport, Health and Wellbeing), Hart Leisure Strategy 2007-2018 (Policy FD9)	This proposal would enhance tennis development within the District. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. Contributions are already being sought towards this project.	£25,000
	Provision of allotments with associated parking	Parish Council	£40,000	Hart Community Strategy 2005-2015 (Priority Aim Transport, Health and Wellbeing), Hart PPG17 Assessment 2006 (Accessibility Assessment - District Wide	This proposal would provide accessible allotments in accordance with need (there are no facilities within the local area). It also accords with the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the	£40,000

				View: Bowling Greens (need in Hook)), Hart Leisure Strategy 2007-2018 (Policy FD16)	Parish over the next 5-7 years to confirm both the need and to ensure deliverability of this project.	
	Enhancement to Play Areas at Recreation Ground and North Warnborough	Parish Council	£60,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment (additional need and demand for allotments right across Hart District). Sufficient infill development is likely to take place within the Parish over the next 5-7 years to confirm the need and to ensure deliverability of this project.	£60,000
Rotherwick	Enhancements to play area	Rotherwick Playground Development Group	£26,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. Funding is already being sought for this project.	£26,000
	Rotherwick Recreation Area - Enhancements to play area	Rotherwick Playground Development Group	£50,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. Funding is already being sought for this project	£50,000
	Rotherwick Village Hall - improvements	Rotherwick Parish council	£71,000	No clear policy or evidence base.	It is unclear how this project is related to demands created by new development as there is very limited opportunity for development within the parish. Furthermore, the amount of money sought to secure the project is uncertain, and it is unlikely that sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project. At this stage therefore, the project fails the necessary tests as set out in the Planning Inspectorate Good	£0

Parish Area	Scheme	Source	Cost of Project	Evidence Base	Head of Planning Services and Head of Leisure comments/recommendations	Interim Contribution recommended
					Practice Note 16/2010.	
	Rotherwick Recreation Ground - improvements to playing field drainage	Rotherwick Parish Council	£25,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions - Quality of Provision (more and better pitches))	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. It is however, unclear how this project is related to demands created by new development as there is very limited opportunity for development within the parish. Before however, any contributions are sought for this project the Parish Council must first demonstrate that sufficient development will take place within the local area to justify deliverability of this project. This can perhaps be done through agreement with adjoining parish council who may also have an identified need for access to additional football pitches.	£0
	Refurbishment of Rotherwick Cricket Pavilion	Rotherwick Parish council	£100,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG16 Assessment 2006 (Local Needs: Key Conclusions - Quality of Provision (more and better pitches))	It is unclear how this project is related to demands created by new development as there is very limited opportunity for development within the parish. There appear to be little evidence base to support any requirement that this improvement should be funded by developer contributions. It is also doubtful that sufficient infill development will take place within the Parish over the next 5-7 years to ensure deliverability of this project. The project fails the necessary tests as set out in the Planning Inspectorate Good Practice Note 16/2010.	£0
South Warnborough	South Warnborough Recreation Area, Gaston Lane - Replace 20 year old bark safety surfacing, as recommended by ROSPA, with grass grow through rubber matting.	Parish Council	£13,929	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new Approach to Children's Play), Hart Leisure Strategy 2007-2018 (Policy FD15)	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. Sufficient infill development is likely to take place within the Parish over the next 5-7 years to ensure deliverability of this project. Contributions are already being sought for this project.	£13,929
	South Warnborough Recreation Area, Gaston Lane - construction of outdoor, multi-use (tennis, 5-a-side football, netball, basket ball areas in north west part of the recreation ground.	Parish Council	£34,000	Hart Community Strategy 2005-2015 (Priority Aim Health and Wellbeing), Hart PPG17 Assessment (Local Needs: Key Conclusions - Quantity of Provision (more and better provision for children in town and villages) and Youth Issues (perceived lack of provision for children's play), Issues and Options: A new	This proposal would enhance youth facilities. The project would meet Hart Community Strategy and Hart Leisure Strategy objectives and would accord with the specific findings and recommendations of the Hart PPG17 Assessment. It is however, unclear how this project is related to demands created by new development as there is very limited opportunity for development within the parish. Alternative sources of finance need to be confirmed and a business case	£0
